Jupiter Facts

Jupiter is the fifth planet from the Sun and the largest in the Solar System. It is a gas giant with a mass one-thousandth that of the Sun, but two-and-a-half times that of all the other planets in the Solar System combined. Jupiter has been known to astronomers since antiquity. It is named after the Roman god Jupiter.

Rules Sagittarius and Pisces

In Detriment in Gemini and Virgo

In Exaltation in Cancer

In Fall in Capricorn

Jupiter (Latin: Iuppiter) is the king of the gods in Roman mythology. He was also known as Jove and as the god of the sky and thunder. He is called Zeus in Greek mythology.

Jupiter the planet has 69 known Moons. The largest are the Galilean moons - Io, Europa, Ganymede, and Callisto. These were discovered by Galileo and Simon Marius in 1610.

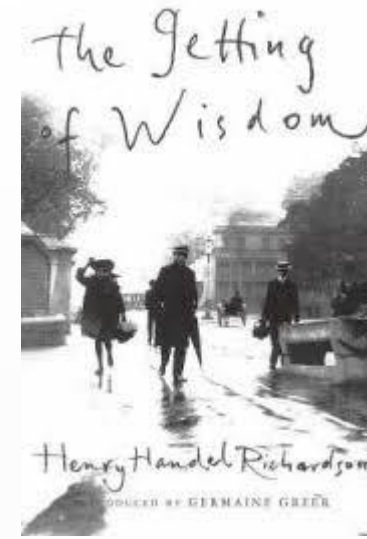

JUPITER AND THE MARKETS

JUPITER rules Gold as does the Sun. Jupiter also rules tin, zinc, rubber. It brings expansion, new industries, prosperity, and its good aspects bring very high rises. Its bad aspects show selling for profit taking, and a fall in values. It may also indicate over-capitalization and over-production.

The planet Jupiter tells you about your goals in life, in particular the areas in which you are likely to succeed. Jupiter is the planet of expansion, abundance and wisdom. Ancient astrologers called Jupiter “the Great Benefic” and believed that it bestowed riches and rewards on individuals. This planet was associated with Kings, Lords and others in high places.

Jupiter is associated with being plentiful and benevolent. It is tolerant and expansive. The first of the social planets, Jupiter seeks insight through knowledge. This is the planet of exploration through study, travel or higher learning. It is the getting of wisdom.

So how does Jupiter the planet of expansion work in Gemini the Sign of flexibility?

Jupiter in Gemini

Enters 26 May 2024 and exits June 10 2025.

Jupiter in Sagittarius is like a King sitting on a throne. The King is powerful and benevolent ruling his own kingdom.

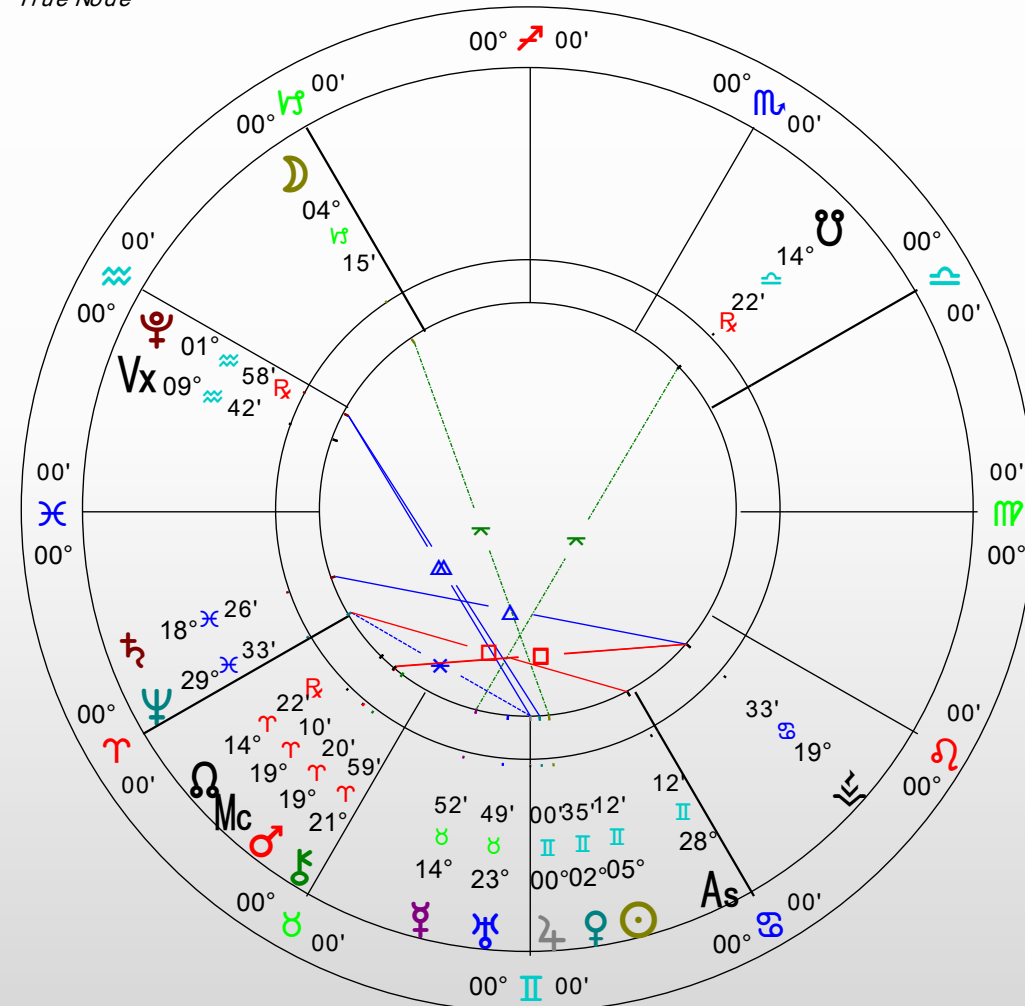

Jupiter in the opposing Sign of Gemini is considered in Detriment and so the King becomes scattered, vague and indecisive.

If Jupiter in Sagittarius is the King or Queen then Jupiter in Gemini is the young Prince or Princess who is unsure.

The positive side is that Jupiter is trine Pluto and so there is much to learn.

Gemini is an Air sign. With an Air sign Jupiter, we are mentally adventurous, ready and willing to learn, into “mind expansion”, and less attached to our values than others because we are generally quite impartial and open-minded. We are able to see many sides to an argument. More specifically with Jupiter in Gemini, we attract the most good fortune when we use our wit and ingeniousness, are versatile, sociable, curious, and put others at ease with friendliness and sincere curiosity.

During this Jupiter in Gemini cycle, we place strong emphasis and value on the intellect. We see opportunities to grow and succeed through intellectual, verbal, and written channels. We are more inclined to believe that intelligence and knowledge are the major keys to solving problems. Communication and contact are valued.

What years has Jupiter already traversed Gemini

June 12, 1929 – June 27, 1930 (*The Great Depression started in September 1929*)

June 30, 2000 – July 13, 2001

June 12, 2012 – June 26, 2013

If Jupiter in Sagittarius is good judgment then Jupiter in Gemini is misjudgement.

So this a period when we all need to be wary of jumping in too quickly.

New technology and transport needs to be fully tested. Risk taking needs to be tempered.

If you have Jupiter in Gemini in your Birth Chart then you are having a Jupiter Return.

April 23, 1965 – September 21, 1965

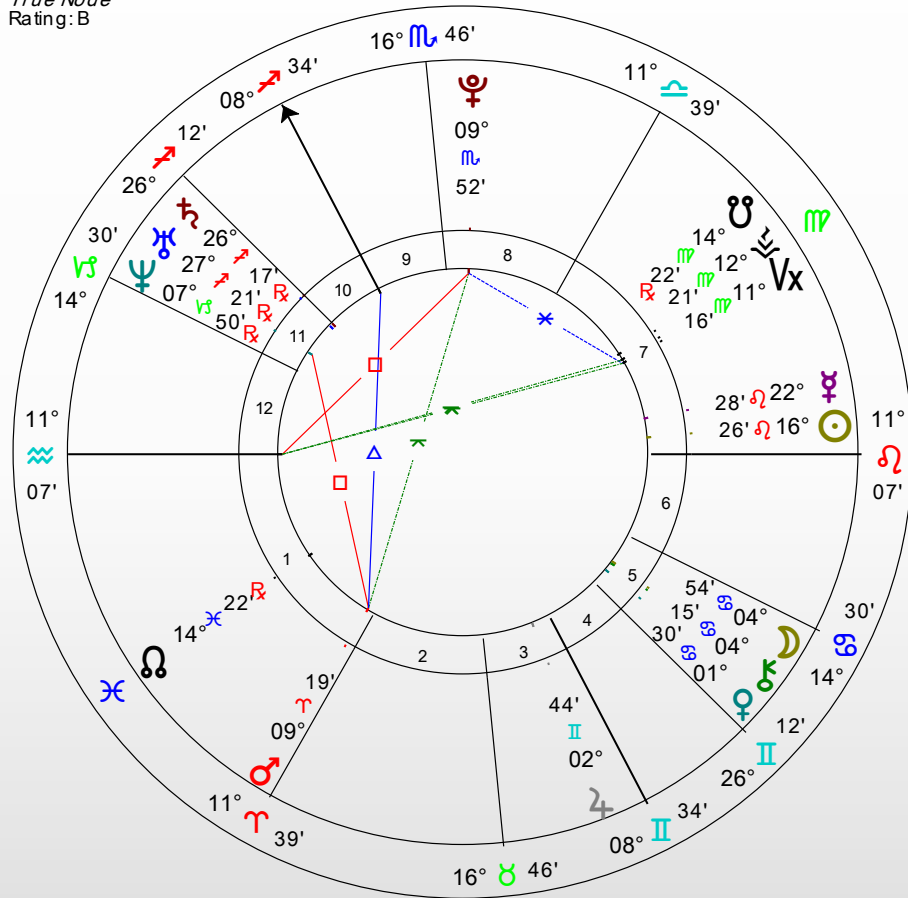

August 23, 1976 – April 12, 1978 (in and out of Gemini)

And if you have Gemini Personal points then Jupiter is transiting them, usually bring new opportunities and good fortune.

The difference with this Jupiter transit through Gemini is the trine to Pluto in Aquarius, both Air Signs.

This signals a real boost in social media, communications in general and learning about shared resources. Pluto in Aquarius is people power. So, Jupiter in Gemini will give a real boost to people power.

Space exploration is also likely to take off. All forms of world transport are likely to speed up. We are on the edge of another technological revolution. Think AI on speed. Think “The Jetsons” if you are old enough. Jupiter in Gemini/Pluto in Aquarius = Supersonic

As a result, the way that we exchange money changes, perhaps Bitcoin and other new methods of finances. If the old way does collapse, it will be quickly replaced with others.

This combination is very much about the “human RACE”.

Sadly when Jupiter is in an Air Sign and trine Pluto there is also a negative side.

We can see an increase in transport crashes and mass shootings.

In 2015 when Jupiter and Pluto made this 120 degree connection, we saw terrorist attacks in Paris.

This combination of Jupiter and Pluto will have the greatest effect on Air Signs and Fire Signs. These will be what we call Trines and Sextiles. If you have personal points in these Zodiac Signs then slowly but surely you will feel growth occurring, a new way of life emerging.

Then the Earth and Water Signs will experience the harder aspects. If you have personal points in the Earth and Water Signs then you may have to let go of something before the new life emerges. Imagine tilling the earth ready for new growth.

The exception is Leo. Transiting Pluto in Aquarius is opposing Leo. So if you have Leo factors you may find other people or events tipping the balance of power in your life.
